

PHIX™ GRAVITY SERIES

by Green Turtle

KEEP YOUR WASTEWATER NEUTRAL

Engineered Wastewater Neutralization Solutions for Gravity Flow Applications

Corrosive wastewater discharged into building plumbing systems can cause serious physical damage resulting in additional capital costs and environmental compliance liability.

PHIX™ GRAVITY SERIES

▶ EFFECTIVE WASTEWATER NEUTRALIZATION ENSURES COMPLIANCE

PHIX™ Gravity Series is an innovative, environmentally friendly technology that treats both ends of the pH spectrum safely and economically. By minimizing turbulence, the PHIX™ Gravity Series promotes maximum contact between PHIX™ Media and wastewater, reducing detention time.

The result: wastewater pH is treated effectively and efficiently within compliance limits, preventing surcharges, fines and major retrofits.

▶ SAFE, NON-TOXIC, ECONOMIC MEDIA

PHIX™ Media is an all-natural, non-toxic, non-hazardous material more efficient and effective than limestone and caustic soda. A smaller, cost-effective neutralizing system, PHIX™ Gravity Series requires less maintenance.

Next time limestone needs to be replaced, use PHIX™ Media – the safer and more economical alternative.

Comply and save your investment.

SAFELY COMPLY WITH CONFIDENCE

Engineered Wastewater Neutralization Solutions for Gravity Flow Applications

▶ CONSISTENT SOLIDS REMOVAL AND WASTEWATER NEUTRALIZATION

Engineered for commercial, institutional and industrial gravity flow applications, the versatile PHIX™ Gravity Series both removes solids and neutralizes wastewater. The PHIX™ Gravity Series is constructed from durable fiberglass or polyethylene and uses consumable, non-toxic media for reliable and consistent wastewater neutralization.

> PHIX™ Gravity Unit

PHIX™ Gravity Series

- > Low operation cost
- > Guarantees compliance
- > Safe, non-toxic
- > Efficient, consistent, reliable
- > Wide range of applications
- > Protects drains and sewers
- > Prevents penalty and retrofit
- > Less maintenance
- > Environmentally friendly

▶ ADAPTABLE TO MEET YOUR SPECIFIC APPLICATION

Ideal for new construction or retrofit projects, the PHIX™ Gravity Series system can be modified to meet your specific requirements for pH adjustment application.

▶ GUARANTEED PERFORMANCE MADE EASY

Green Turtle will maintain the PHIX™ Gravity Series system based on a service agreement to ensure that pH levels remain within compliance. If any changes, improvements, or adjustments are required to maintain the system, Green Turtle will complete those changes at no cost to the client, within the duration of the service agreement.

Safe and economical wastewater neutralization is now possible.
